

“B&B HOTELS is committed *to you!*”

Ever since the opening of our first hotel in 1990, we have always been very mindful of maintaining proper hygiene in our establishments.

To adapt to the unique context we're living in, B&B HOTELS is the first hotel chain to have its health risk management certified by an independent body, SOCOTEC.

All of our B&B hotels in France are currently undergoing certification, which guarantees our commitment to protecting you and our staff, particularly from COVID-19.

AMONG THE KEY MEASURES IMPLEMENTED

1 | PREVENTIVE & PROTECTIVE MEASURES

- Hydroalcoholic gel available at the reception and in all rooms.
- Installation of protective screens in each of our receptions.

- Regular disinfection of all customer contact points (door handles, lift buttons, gate code panels, etc.) with virucidal products.
- Disinfection of our electronic payment terminals after each use with a virucidal product.

- Reception queue observing physical distance (ground markings).
- No more than 1 (or 2) persons at a time in the lifts.

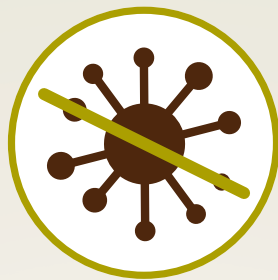

- Food service adapted to the new constraints: the breakfast, prepared by staff equipped with suitable protections, is to be taken away or consumed in your room.

DON'T HESITATE TO ASK OUR HOTEL STAFF.

ONLY FOR EVERYONE

2 | SPECIFIC HYGIENE MEASURES

- Enhanced cleaning protocol in all our hotels; training and personal protective equipment for all our maintenance staff.

- Thorough disinfection of our rooms using virucidal products that comply with the EN 14476 standard.

- In each room, a card issued by the person who carried out the disinfection guarantees hygiene before the guest's arrival.

- Reinforced protocol for the management and disinfection of linen (sheets and towels).

- Specific management of rooms booked for several nights: no one other than you will enter your room for the duration of your stay.

NEW

All our hotels offer on-site catering solutions.

**ENJOY YOUR STAY AT B&B HOTELS!
TAKE CARE OF YOURSELF.**
